There's only one problem: Stephen de Piaget, a stuffy medieval scholar determined to get in the way. Peaches has no interest in Stephen, until a quirk of Fate sends her hurtling through time...

De Piaget has been leading a double life: respectable professor by day, knight-in-training during holidays and summer terms. When Peaches goes missing, Stephen knows he's the only one that can rescue her from medieval peril. The Pack JASON STARR

“Manhattan receives a lustrous varnish of black, black humor in this sly urban fantasy thriller.” —*Publishers Weekly*

Simon Burns’s strained marriage gets pushed to the limit when he’s unceremoniously fired from his job and reluctantly takes on the role of stay-at-home dad for his three-year-old son. Then he meets a tight-knit trio of other dads: Michael, Charlie, and Ramon. Their strength, confidence, and ease with the darker side of life lures Simon into their mix.

Now, after a crazy night out with the guys, Simon has an insatiable appetite for life—for running through the woods, for making love to his wife, and for downing meal after meal of rich, tender meat. And he starts to suspect that when Michael welcomed him to “the pack,” he was talking about much more than male bonding...

“A great read...brings werewolves to the streets of New York City and manages to seem completely believable.” —*Library Journal*
